

**Position:** Latent Print Examiner  
**Reference #:** 02076  
**Organizational Unit:** HEE-NSP-FS/OS  
**Appointment Type:** FTT  
**Location:** Quantico, VA and Huntsville, AL  
**Date Posted:** June 19, 2018

**PURPOSE:** The LPE performs comparisons of friction ridge detail of latent prints, perform administrative and technical reviews, and report results in official and unofficial capacities.

**ESSENTIAL JOB FUNCTIONS:**

- Interact with other forensic staff to ensure a high quality product of latent print analysis and examination. Analyze images of latent prints to determine value for comparison.
- Encode, launch, and conduct automated latent print searches using LD's NGI system, or appropriate automated searching platform. Screen the results of the searches and conduct any necessary comparisons. Conduct comparisons of latent prints with known fingerprints, palm prints, complete friction ridge exemplars and other latent prints to determine source attribution.
- Author, review, and provide quality control of case notes, photographs, chain of custody, electronic communications, and communication logs. Prepare all required documentation for the case file relative to position, to include appropriate reporting mechanisms. Research, develop, and author whitepapers and information papers, as required.
- Perform verifications, blind verifications, and appropriate comparison checks, as directed and appropriate. Use current database(s) and software program(s) for evidence inventory, tracking, and flow; and, documentation for the case file relative to the position.
- Complete and pass the LD latent print discipline training requirements and appropriate latent print competency test within the time period as set forth by the BAU, as appropriate. Complete and pass a yearly proficiency test in the area of latent print comparisons from an independent external vendor, if available, or one created internally if no such external test is available.
