

# BASIC BLOODSTAIN ANALYSIS

This course provides opportunities to learn the fundamentals of bloodstain pattern analysis. It consists of laboratory exercises and lectures to define the principles of bloodstain analysis in a theoretical and practical manner. During this course, students will become acquainted with the terminology recommended by the Academy of Forensic Science Standards Board.

**INSTRUCTOR: ANNA M. COX, MFS**  
Anna M. Cox, MFS of Cox Forensic Consulting and Training, LLC has worked in Forensics for over 23 years. Cox has provided bloodstain pattern analysis and conclusions in over 215 violent cases across the U.S., and in federal and military jurisdictions.
