

Uncover Forensics FORENSIC TRAINING

FRICTION RIDGE EXAMINATION - PART 1

40-hour online, self-paced course

IAI approved for 40 hours of Latent Print initial certification training, and 40 hours of Tenprint initial and recertification training

This course provides fundamental skills and knowledge needed to perform friction ridge examinations. Topics include the history of friction ridge examination, the structure and formation of friction ridge skin, features of impressions (i.e. ridge flow, minutiae, creases, and more), classification rules, and ABIS searching. Also covered is the friction ridge examination process ACE-V, with topics such as suitability/value determinations, conducting side-by-side comparisons, tips for more efficient and easier comparisons, options for conclusions, and various types of verification.

** latent impressions, distortion, palms, and more are covered in Part 2 of this series**

Permanently-running course, start any time!
