

TRAINING ANNOUNCEMENT

BASIC BLOODSTAIN PATTERN RECOGNITION COURSE

Hosted by: Utah Bureau of Forensic Services
Location: Unified State Laboratory: Department of Health
4431 S. Constitution Blvd.
Taylorsville, UT 84129
Instructor: Craig C. Moore (Ontario, Canada)
March 23-27 2020 (0800 – 1700 hrs, Monday through Friday)

COURSE DESCRIPTION

The 40-hour course will provide a firm understanding of bloodstain pattern analysis through a unique blend of:

- Theory enriched study broken down into BPA history, bio-chemistry, physics, fluid dynamics and trigonometry
- Hands-on practical experiments with mammalian blood
- Case presentations

It contains a well-established curriculum; peer reviewed by experts in their own-right, all contained in a color enriched comb bound manual, and is designed to be used as reference guide throughout your career. Unique, singular-use experiment apparatus' have been designed and refined over the years to provide the best practical hands-on learning experience available, in excess of 1 tonne of material is transported in his cargo trailer.

The course syllabus is on file with the International Association for Bloodstain Pattern Analysis (IABPA) and with the International Association for Identification (IAI) since May 2006. It is approved for BPA Certification with the IAI and meets membership criteria with the IABPA. It should be noted the presented material is ever evolving and is under constant revision and refinement by Craig. In November 2014, the IABPA reviewed and re-approved the course. The following year the American Board of Medicolegal Death Investigators (ABMDI) recognized the course for continuing educational hours.

INSTRUCTOR CRAIG C. MOORE

- 16 years experience with the Forensic Services Unit of the Niagara Regional Police Service, Ontario Canada, where he retired in 2015 after 30 years of service.
- A current IAI Certified Bloodstain Pattern Examiner since 2000 who became a Distinguished Member in 2006
- Numerous published articles and in excess of 175 lectures presented.
- Testified and been accepted as an expert in Bloodstain Pattern Analysis at the General Division and Superior Court of Justice jurisdictional levels in Ontario, the County Court level in New York State (most recently 2018 - twice) and he was also called before a Board of Inquiry with the Canadian Armed Forces to offer expert opinion on a BPA case.
