

## The Bone Zone (Webinar)

### COURSE DESCRIPTION

This course is designed to help you have more confidence when you are working cases that involve bones and skeletal human remains. Students will learn about the following topics:

- What is Forensic Anthropology?
- The basics of bone versus non-bone
- The basics of human versus animal-bone
- How and where to seek out professional opinions and assistance
- So it is human bone, now what do I do?
- When to call in for assistance in cases that have skeletal remains
- How can forensic anthropology assist in cases that have skeletal remains
- What are your local/state resources for assistance with forensic anthropology

This is a live webinar and must be attended in-person to receive a certificate. Instructor-student interaction will be ongoing throughout the course, so students will be expected to not only be present, but also to participate just as they would in a face-to-face course.

You will receive a PDF workbook to download via email prior to beginning the course.
