

## Explosives and Hazardous Device Examiner

---

### PART TIME

#### Highlights:

- You'll be joining a dynamic forensics team with many opportunities to grow professionally and working with other forensic experts in various fields to support the FBI and TEDAC missions.
- This is a unique opportunity to work with the FBI laboratory.
- You'll obtain some or enhance your experience working in a fully functional government laboratory working closely with other forensics experts.

#### Tasks:

- Support the EU and other TEDAC units that work with the EU by performing operations and logistics duties as directed by the UTM.
- Maintain partnership with the Defense Intelligence Agency (DIA) Directorate for Science & Technology (DST).
- Coordinate the transport and examination of material from improvised detonators submitted to TEDAC for full laboratory exploitation.
- Draft LD reports detailing the components that comprise the improvised detonators.
- Obtain different types of detonating cords manufactured all over the world.
- Update and maintain information in the EXPeRT database.
- Serve as the training examiner for non-qualified Special Agent Bomb Technician (SSABT's) in the EU.
- Provide training in the area of administrative matters, operations of the EU, and the safety procedures associated with the explosives demolition range and associated equipment, the LD Quality Assurance Manual (QAM), Laboratory Operations Manual (LOM), and the American Society of Crime Laboratory Directors / Laboratory Accreditation Board-International (ASCLD / LAB-International) accreditation program.
- Perform both technical and administrative reviews of Forensic Explosive and Hazardous Device reports written by the trainee, verifying accuracy, and compliance with EU Standard Operating Procedures (SOPs) during the trainee's training period.
- Conduct technical and administrative reviews for EU device reports.
- Construct and prepare "mock-up" explosive devices for proficiency testing within the EU.
- Provide training to all SABTs deploying outside the continental United States (OCONUS).
- Develop cases and draft LD reports, as well as write assessments for the Intelligence Unit (IU) and proofread the majority of reports issued by the IU for the accuracy of explosive components and terminology.
- Support activities, functions, or duties, as defined in future TOs.
- Research, develop, and author whitepapers and information papers, as required

#### Requirements:

- Education: B.S. degree in the Physical Sciences.
- Experience: At least three (3) years of experience in positions requiring examinations/inspections.
- Skills: Investigative services.
