

Explosives Safety Specialist

Highlights:

- You'll be joining a dynamic forensics team with many opportunities to grow professionally and working with other forensic experts in various fields to support the FBI and TEDAC missions.
- This is a unique opportunity to work with the FBI laboratory.
- You'll obtain some or enhance your experience working in a fully functional government laboratory working closely with other forensics experts.

Tasks:

- Assist in performing a range of work involving many different and unrelated processes related to IED and explosives ordinance defeat.
- ESS personnel must complete an internal training program for working with evidence.
- Perform and document safety-check practices on all evidence submitted for explosives testing.
- Utilize EMU x-ray equipment to produce clear x-rays that are sufficient for accurate interpretation of potentially hazardous devices submitted.
- Perform x-ray interpretation, in collaboration with other qualified individuals, to determine if a device is safe, or needs to be rendered safe, by qualified Special Agent Bomb Technician (SABT) or FBI Forensic Device Examiners.
- Assist SABTs in the disposal of, and / or render safe, live explosive devices IAW all applicable laws, rules, regulations, methods, and procedures.
- Assist in the proper transport and storage of explosive devices and materials IAW all applicable laws, rules, regulations, methods, and procedures.
- Assist SABTs, or Forensic Device Examiners, in conducting comprehensive assessments if requested.
- Prepare detailed documentation and reports associated with explosives storage, explosives inventory, explosives safety, explosive management program, and range activities.
- Receive, open, and inventory evidence. Initiate and maintain proper evidence administrative documentation, including chain-of-custody of all forensic evidence under examination and be able to perform the duties associated with evidence management and data entry into various databases for evidence processing.
- Support activities, functions, or duties, as defined in future TOs.
- Research, develop, and author whitepapers and information papers, as required

Requirements:

- Education: B.S. degree.
- Experience: At least five (5) years handling explosives.
- Skills: Explosives Ordinance Disposal (EOD), performing and interpreting x-ray capture/images, explosives demolitions, explosives safety management, and explosives range safety.
- Certifications: DOD or FBI certification to perform explosives operations.
- Equipment: Steel Toe Boots required for range work or work with power equipment
