

# HOMICIDE INVESTIGATION

## 40-HOURS

Whether you are the first responder or the lead investigator, this course will give you the knowledge and skills to thoroughly and professionally investigate any possible homicide situation.

We will show you the various types of homicides that you may encounter and common approaches to each. You will learn a systematic process for handling the crime scene, from the initial approach through scene documentation and evidence collection. And, you'll see how the latest technology and forensic sciences can assist you in your investigation.

Beyond the crime scene, you'll also learn about criminal profiling, interrogation techniques and how to handle the news media's involvement.

**TUITION:** \$895

## STUDENT FEEDBACK:

- Presenters have a wealth of knowledge and present it in a way that is captivating. They inspire confidence.
- Course was well designed and included case examples. Learned methods that can be practically applied immediately.
- Being able to actually see the photographs of the scenes and having the instructors walk us through each scene provided me with a better understanding of what actually occurred.
- Studying different homicide incidents exposed me to additional scenes that I had not experienced
- This course has you think outside of the box and was more in-depth than any related course I've taken.
