

Position: Forensic Chemist
Reference #: 02504
Organizational Unit: HEE-NSP-FS-NEFB/OS
Appointment Type: FTR-A
Location: Ft. Gillam, GA/OCONUS
Date Posted: 6/24/20

PURPOSE: Serve as a Forensic Chemist to perform all types of chemical examinations to include explosive and drug samples. Conducts visual, physical, chemical, photographic and other scientific and instrumental examinations of complex submissions of physical evidence.

ESSENTIAL JOB FUNCTIONS:

- Conduct visual, physical, chemical, photographic, and other scientific and instrumental examinations of complex submissions of physical evidence using established knowledge of biochemistry, toxicology, and other chemistries of toxic and hazardous materials, their chemical and physical transformation and the chemistry of the resulting products. Use chemistry analytical methodologies such as Gas Chromatography (GC); ultraviolet, infrared, and mass spectrophotometers; Polarimeters; and microscopes to perform duties.
- Conduct examinations while maintaining chain of custody, and formulating interpretation results for forensic and/or intelligence exploitation using X-Ray Fluorescence (XRD), DNRf.
- Perform quality checking of instruments and reagents.
- Utilize and submit findings to national databases.

JOB REQUIREMENTS:

- Four (4) years of lab experience conducting visual, physical, chemical, photographic, and other scientific and instrumental examinations of complex submissions of physical evidence.
- Ability to be cross trained to conduct the above described examinations on both explosive and drug samples.
- Working knowledge of biochemistry, toxicology, and other chemistries of toxic and hazardous materials, their chemical and physical transformation and the chemistry of the resulting products.
