

**In Memory of**  
**Janice M. Johnson, CSCSA**  
**IAI Past President**

On behalf of the IAI, I wish to offer my condolences to the family and friends of International Association for Identification Past President Jan Johnson on her passing. Jan was the consummate professional, from her start as an FBI fingerprint examiner, to the Florida Department of Law Enforcement (FDLE), the Escambia County (FL) Sheriff's Office, and then as the owner of Forensic Pieces. Jan possessed boundless energy and touched the professional and personal lives of so many of us.

I can attest that Jan was driven by a selfless and strong desire to better the field of forensics. Just one example of this occurred in 2015 when Jan graciously volunteered her time and paid for all of her expenses to travel to El Salvador in order to train the conference's participants of the Central American Division of the IAI. A true legend, Jan will be greatly missed but her wisdom will live on in us.
